● I. Person Brief:

Chengyuan Wang has long been engaged in the research on the path of achieving the United Nations Sustainable Development Goals (UN SDGs) assessment, human-land coupling mechanism, sustainable forestry management and land degradation assessment. He has participated in 5 research projects, including the National Key Research and Development Program and the National Natural Science Foundation of China. He has published 18 peer-reviewed papers in the *Resources, Conservation and Recycling*, *Journal of Cleaner Production*, and other journals, including 5 first-authored papers, 1 paper in the ESI 1% highly cited papers, 350 citations in Google Scholar, and 2 China's authorized software copyrights. As the Assistant Manager for *International Journal of Sustainable Development & World Ecology* (IF₂₀₂₄=7.7, JCR Q1).

● II. Education Background:

2024.09-Now	Forestry Management M.S., College of Forestry, Northeast Forestry University
2020.09-2024/06	Geography Information Science B.S., College of Forestry, Northeast Forestry University

● III. Academic Experience:

2025.08-Now	Assistant Manager, <i>International Journal of Sustainable Development and World Ecology</i>
2023.09-Now	Assistant Manager, Future Forestry Lab, College of Forestry, Northeast Forestry University
2024.09-2024.10	Assistant Teacher, Remote Sensing Image Processing, Northeast Forestry University

● IV. Research Project:

1. Ministry of Heilongjiang Province Science and Technology, Heilongjiang Natural Science Foundation, PL2025C032, Coupling Mechanism Between Sustainable Forest Management and Sustainable Development in Forest Areas Under the Context of Natural Forest Logging Ban, 2026-01 to 2028-12, RMB 100,000, Participation, Main Declare, Under Research.
2. Ministry of Science and Technology, National Key Research and Development Program, 2023YFD2201704, Forest Resources Data Annual Update Technology with Multi-source Data Collaboration, 2023-12 to 2027-11, RMB 2,800,000, Participation, Main Declare, Under Research.
3. National Natural Science Foundation of China, National Natural Science Foundation, 32371863, Mechanisms and Characterization of Coupling Forest Horizontal Spatial Structure and Spatial Resolution of Remote Sensing Images, 2024-01 to 2027-12, RMB 500,000, Participation, Under Research.
4. Northeast Forestry University, Northeast Forestry University Carbon Neutral Special Science Fund Project, Hotspots and Thresholds of Eco-Efficiency of Black Soil Cultivated Land Utilization under Carbon Emission Constraints, 2024-01 to 2025-12, RMB 300,000, Participation, Main Declare, Completion.
5. Ministry of Science and Technology, National Key Research and Development Program, 2021YFD150070505, Evaluation of the Degree of Erosion and Productivity of Agricultural Land in Black Soil, 2021-12 to 2024-11, RMB 800,000, Participation, Completion.

● **V. Paper:**

◆ **First Author:**

1. **Wang, C.**, Liu, Y., Liu, H., Sun, X., Wang, E., Mao, X., ... & Wu, Y. (2026). Intervention effects of different forest management measures on forest degradation and improvement in Northeast Asia. *Resources, Conservation and Recycling*, 108641. (JCR Q1, IF2024=10.9). <https://doi.org/10.1016/j.resconrec.2025.108641>

◆ Preprint and Under Review Paper

1. **Wang, C.**, Sun, X., Liu, Y., Tian, Z., Niu., Q, Mao, X., ... & Shao, G. Coupling Relationship and Threshold Calculation Between Forest Degradation/Improvement and Carbon-Water Use Efficiencies. Revision , *Journal of Environmental Management*.
2. **Wang, C.**, Liu, Y., Sun, X., Wang, E., Niu., Q, Liu, Z., ... & Mao, X. Evaluating the Coupling Relationship Between Urbanization and the Sustainable Development Goals in 254 Chinese cities. With Editor, *International Journal of Urban Science*.

● VI. Software Authorship:

1. Xuegang Mao, Yuwen Liu, Yuan Liu, **Chengyuan Wang**: Productivity Monitoring and Warning Platform for Eroded and Degraded Black Soil Farmland v1.0, Registration. No.: 2023SR0389144, China Computer Software, January 2023.
2. Yuwen Liu, Yuan Liu, **Chengyuan Wang**, Xuegang Mao: Erosion Degradation of Black Soil Farmland Productivity Evaluation System v1.0, Registration. No.: 2022SR1412146, China Computer Software, August 2022.

● VII. Prize and Talk:

◆ Talk:

1. **Chengyuan Wang**, Zian Liu, Yuan Liu, Mingze Li, Wenyi Fan, Guofan Shao, Enheng Wang, Xuegang Mao. A Multidimensional Framework for Assessing Human–Forest Coupling Sustainability Under Climate Stability. The III European (Local) Public Innovation Conference. Oral, May, 2026, Mirandela, Portugal.
2. Xiaofan Sun, **Chengyuan Wang**, Weizhao Fan, Yaqin Ji, Xuegang Mao. Coupling Mechanisms and Threshold Calculations for Forest Improvement/Degradation and Carbon-Water Use Efficiency in Northeast Asia, The 3rd National College Students' Ecological Environment Management Research and Innovation Competition, Oral, September, 2025, Nyingchi, China. (**Chengyuan Wang do report in this meeting**).
3. Shichao Jiang, **Chengyuan Wang**, Ruiheng Liu, Sen Zhang, Zhengjun Cai, Xuegang Mao. Pixel-Based Synthesis of Medium Spatial Resolution Remote Sensing Images, Meeting Report, The 17th Annual China Student Innovation Conference, Oral, November, 2024, Chengdu, China. (**Chengyuan Wang do report in this meeting**).
4. Zian Liu, **Chengyuan Wang**, Yuan Liu, Wenyi Fan, Mingze Li, Xuegang Mao. Synergies within and potential barriers to global forest sustainable development. The III European (Local) Public Innovation Conference. Oral, May, 2026, Mirandela, Portugal.

● VIII. Academic Appointments:

- As Assistant Manager in *International Journal of Sustainable Development and World Ecology* (JCR Q1, IF=7.7).
- As journal reviewer in *Sustainable Cities and Society*, *Sustainable Development*, *Journal of Cleaner Production*, *Scientific Data*, *Cities*, *Journal of Environmental Management*, *Ecological Indicators*, *Growth and Change*, *Humanities and Social Sciences Communications*, *Ecological Informatics*, *Regional Sustainability*, *Sustainable Futures*, *Clean Technologies and Environmental Policy*, *Discover Sustainability*, *Discover Cities*, *Discover Geography*.
